TU Berlins rocky road to sustainable digitalisation

Internal Innovations:

Use own knowledge for sustainable transformation

Greening of IT
Greening with IT
Data-driven innovation

Build the hybrid university

Strategic Coupling: Build on Strength and Opportunities

Interactive table with a multitouch screen

Learn from experiences: from reactive to proactive digitalisation

New roles and strategic governance: CDO and CIO

Setting the right priorities: Sustainability is a duty

Realism: Where is our own room for maneuver, what contributions can we make, where must others share responsibility?
